ABSTRACT

Extensive data tables show enrollment for higher education institutions in the United States in 1979. Trend tables are for fall 1976, 1977, 1978, and 1979, showing sex, institutional control (public or private), percent change, and attendance status of student (full- or part-time). One table shows trends since 1969. Summary enrollment tables are given by attendance status, institution level, and sex for all institutions, and by attendance status, sex, and institution level for public and private institutions separately. Enrollment by institution level is shown by enrollment level, sex, attendance status, institutional control and institution level separately for undergraduates, post-baccalaureates, full-time equivalent of part-time students (baccalaureate and post-baccalaureate), first-time students, and first-year undergraduates. Enrollment by state is given for all institutions, all public institutions, public institutions by level (universities, other four-year institutions, and community colleges), all private institutions (total and by level), undergraduates and unclassified students in all institutions, post-baccalaureate students in all institutions, full-time equivalent of part-time students (undergraduates and post-baccalaureate separately), first-time students, and first-year undergraduates. Notes on survey background and the survey report form are appended. (MSE)

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

This edition of *Fall Enrollment* presents tabular information on enrollments in colleges and universities for fall 1979. The tables displaying the data are grouped under five major categories: I. trend tables; II. summary tables; III. enrollment by level of institution; IV. enrollment by State; and V. enrollment by institution. Footnotes to various tables indicate what additional tables are available. Background information on the survey population is presented in appendix A.

This year's report does not contain race/ethnic and field of study enrollment data. That information will be collected in fall 1980 and reported in the 1980 edition of *Fall Enrollment*.

The cooperation of registrars and other college officials who supplied the data is appreciated.

[1] Includes only students whose programs of work consist wholly or chiefly of work normally creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate.

[2] A first-time student is defined as a new freshman (in the fall term) who has never previously been enrolled in an institution of higher education. First-time students are included in the appropriate "total, all students" counts.

Basic Tables

I. Summary Tables

Note- Current enrollment data could not be obtained for 15 of the 3,190 institutional units in the higher education statistical universe represented in these tables. Fall 1978 data was substituted for the following eleven institutions: Golden Gate Baptist Seminary, California (571 students); Daniel Hale Williams University, Illinois (498 students); Park College, Missouri (5,524 students); Be'er Shmuel Talmudical Academy, New York (260 students); Derech Ayson Rabbinical Seminary, New York (149 students); Mesivta Eastern Parkway Rabbinical Seminary, New York (71 students); Rabbinical College of Sanz, New York (176 students); United Talmudical Academy, New York (669 students); Yeshiva Beth Shearim Rabbinical Institute, New York (91 students); Oklahoma School of Business, Accountancy, Law and Finance, Oklahoma (157 students); Virginia College, Virginia (251 students). The following four institutions were new to the universe. For these institutions the enrollment data as reported on the Institutional Characteristics Survey was used: Bais Yaakov Seminary, New York (134 students); Ohr Yisroel Rabbinical College, New York (52 students); Southwestern Baptist Theological Seminary (3,447 students); Griffin College, Washington (181 students). Total 1978 enrollment for the 15 institutions is 12,231.

Two other institutions have not been included in the tabulation for the following reasons: The Center for Degree Studies in Pennsylvania has enrollment comprised solely of correspondence students, and The Community College of the Air Force does not offer classes. Students taking classes through this program are included in enrollment counts for the institutions in which they are actually taking classes.

Survey Background

The *Education Directory 1979-80, Colleges and Universities*[1] was the source for the list of institutions included in the survey on which this report is based.

Institutions of higher education (or the individual branches of multi-campus institutions) included in this report are classified as either 2-year or 4-year institutions, with universities as a separate subclassification of the latter. The 4-year institutions are those that offer programs extending at least 4 years beyond high school. They comprise all institutions that grant bachelor's or higher degrees or some recognition equivalent to such degrees; e.g., ecclesiastical recognition in theological institutions. Some 4-year institutions also offer organized occupational programs of less than 4 years that result in an associate degree or some other recognition of completion such as a certificate or diploma. Universities are those institutions that place considerable emphasis on graduate instruction and have at least two professional schools that are not exclusively technological.

The numbers of institutional units in the fall 1979 survey, and for comparison in the fall 1978 survey, are shown in the table below. For the convenience of the reader, the questionnaire, instruction, and definitions used in the survey are reproduced in appendix B of this report. Complete data were received for all but two of the 3,190 units in the survey.

QUESTIONNAIRE EDITING

Each report form filed in this survey was compared with the report form filed by each institutional unit in the comparable 1978 survey. Large differences in enrollment patterns were accepted if reasons for them were readily apparent. If further information was needed, respondents were contacted by letter and/or telephone for verification, revision, or additions to the figures reported. These procedures undoubtedly eliminated the larger reporting errors, but the extent to which small, unrecognized errors may remain is unknown.

For the convenience of the reader as well as for ease in statistical tabulation, totals have not been rounded but are given as they were obtained—by simple addition of the figures for individual institutional units. This does not imply that totals and subtotals are accurate to the last digit. It was believed, however, that the data could be more conveniently used if the many subtotals obtained in the analysis were reported in such a way that they would add exactly to the totals. Also, in view of the care with which the data were compiled by respondents and reviewed by the National Center for Education Statistics, it seemed appropriate that the totals reflect the individual reports.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

INSTRUCTIONS AND DEFINITIONS

Before mailing this form to NCES, please detach these instructions and definitions.

GENERAL INSTRUCTIONS

Proofread the completed report before returning it to the National Center for Education Statistics.

This report should include only college-level students taking work creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate.

If exact counts are lacking for a particular category of students that should be reported, include an estimate for that group.

Do NOT fill out separate forms for extension centers. Only campuses with their own FICE code numbers should be reported on separate questionnaires. Extension students should be reported on the form for the main campus.

Do NOT include in this report:

(a) Students in noncredit adult education courses and noncredit extension courses.

(b) Students taking courses at home by mail, radio, or television where the course(s) are not creditable toward a bachelor's degree or some other formal recognition below the baccalaureate.

(c) Auditors.

(d) Students studying abroad if their enrollment at the institution is only an administrative record and the fee is only nominal.

(e) Students in any branch campus or extension center in a foreign country.

(f) High school students taking college courses.

(g) Students known to be enrolled concurrently at another college or university, if the latter will report their enrollment *(to avoid double-counting)*. Normally, the institution that will eventually grant the degree should report the student's enrollment.

NOTE: No matter what the calendar system, report on this questionnaire only those students enrolled during the FALL TERM.

If you need CLARIFICATION of any item on the questionnaire that pertains to fall enrollment, please call the Survey Director, Dr. Andrew Pepin, NCES, (202) 245-8392, in Washington, D.C.

DEFINITIONS

UNDERGRADUATES. Students enrolled in a 4- or 5-year bachelor's degree program, in an associate degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate.

CLASS LEVEL. Whether first-year, second-year, etc., should be determined in a logical, consistent, and identifiable way. Usually, a student's class level would be based on the proportion of total credits he has obtained toward the completion of the degree program in which he is enrolled, according to the number of years normally required to obtain them.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attended ANY college. Include students enrolled in the fall term who attended college for the first time in the summer of 1979. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshman level.

OTHER FIRST-YEAR. First-year students who entered the institution before the summer of 1979.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses for credit in regular classes with other students.

UNDERGRADUATE LEVEL. Includes but is not limited to undergraduates who cannot be classified by class standing: for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

POSTBACCALAUREATE LEVEL. Includes but is not limited to "special" and other students taking first-professional or graduate courses but who are not working toward a degree.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the field of medicine, law, and theology specified in Part A of NCES Form 2300-2.1, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are working toward a master's or doctor's degree.

FIRST-YEAR. Graduate students who have completed less than one full year of required graduate study.

BEYOND THE FIRST YEAR. All graduate students who have completed at least one full year of graduate study toward a master's or doctor's degree.

FULL-TIME STUDENTS. Those whose academic load-course work or other required activity is at least 75% of the normal full-time load.

FULL-TIME-EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students *(lines 15-28)* into full-time equivalents by one of the following:

(1) Use a method already employed in your institution to compute FTE's for some other purpose.

(2) Sum the credit hours for part-time students and divide by the **normal full-time credit-hour load.** (NORMAL FULL-TIME CREDIT-HOUR LOAD) is usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them. Do not confuse this with the minimum number of credit-hours required for a student to be classified full-time (75% of a normal full-time load). NOTE: Divide by the normal, or average, full-time load, not by the minimum full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 *(75%)* or more of a normal full-time load should be classified as a full-time student.

NOTE: in all cases Full-Time-Equivalent (FTE) enrollment of part-time students should be reported as whole numbers (lines 15-28, column 15).

RACIAL/ETHNIC CATEGORIES

The shading in columns 1—12 indicates that NCES is not requiring completion of those columns. However, the format from the 1978 questionnaire has been retained for use by State education agencies, central systems offices, and other units that would ordinarily be collecting these data anyway, and so that institutions with computer-generated data bases can utilize the programming developed to produce the data for the 1978 form.

(continued)

The following five racial/ethnic categories are utilized in the survey:

- Black Non-Hispanic
- American Indian or Alaskan Native
- Asian or Pacific Islander
- Hispanic
- White Non-Hispanic

Black, not of Hispanic Origin: A person having origins in any of the black racial groups of Africa.

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America, and who maintain cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race.

White, not of Hispanic Origin: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic group.

In addition, non-resident aliens, i.e., those members of the aforementioned groups who have not been admitted to the United States for permanent residence, should be separately identified as a sixth category; the non-resident aliens are not separately requested by racial/ethnic group, but only in totals.

The definitions of these categories are:

Non-resident alien. A person who is not a citizen of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, non-citizens who have been lawfully admitted for permanent residence *(and who hold a "green card," Form I-151)*, are to be reported in the appropriate racial/ethnic categories along with United States citizens. Non-resident aliens are to be reported separately, in the columns provided, rather than in any of the five racial/ethnic categories which follow.
